Subject: RE: Mid-America Steel Drum 114 Response Extension

Linda:

Thanks for your time on the phone today. As we discussed, EPA agrees that with regard to questions 3 and 4 of EPA's 114 requests to the Oak Creek and Francis facilities, respectively, you may provide a list of "vendors" identified using an alpha or numeric identifier with the four digit SIC code for each facility. For the Oak Creek response to question number 3, that response is due on June 12, 2017, along with the St. Francis response.

Regards,

Erik

Thank you.

I'm available to discuss – Gary and I had been discussing potential information the facility could provide, and I have some additional thoughts on that. Please call at your convenience.

Also – I note that the June 10 date is a Saturday. We would like to provide the information on the next business day, June 12.

Linda

Subject: Mid-America Steel Drum 114 Response Extension

Ms. Benfield:

I will be representing EPA going forward with regard to the response to the 114 requests issued to your above referenced client. Given that you and Gary didn't reach agreement on the issue of how you would be identifying the facilities from which you receive barrels, I agree that the information due tomorrow should not include the list for the Oak Creek facility. I will discuss the length of an appropriate extension as well as the substantive issue of how you should provide the response with my clients and respond to you soon.

Regards,

Erik
